SUMMARY

I am a Junior Full Stack Developer with a solid understanding of front-end and back-end technologies. I'm well-versed in HTML, CSS, JavaScript, and leveraging frameworks like React.js to create interactive user interfaces. As well as being experienced in server-side development using Node.js and Express, I have experience with using databases such as PostgreSQL, Docker, MongoDB, and Prisma for optimized data handling.

I am skilled in developing responsive and user-focused designs using SASS and Tailwind CSS to improve the user experience across multiple devices. Accustomed to working closely with senior developers, contributing to team projects, and adhering to Agile development principles. Dedicated to producing clean code, tackling intricate challenges, and consistently enhancing my web development skills, while contributing to the success and productivity of my team and the company.

EXPERIENCE

Full Stack Software Development Graduate

Boolean UK

📅 08/2023 - 03/2024 📍 Remote, United Kingdom

I took six months off from my career to study Full Stack Web Development full time for six months.

- Well-versed in the essential web development languages: HTML, CSS, and JavaScript
- Experienced in front-end development utilizing the React & Next.js frameworks
- Adept at back-end development using Express and Node.js
- Proficient in database management and operations with PostgreSQL, MongoDB, and Prisma
- Skilled in data modeling, storage, and retrieval techniques
- Implemented responsive designs using Tailwind CSS to optimise user experience
- Developed a thorough understanding of the full development lifecycle, from concept to deployment
- Gained hands-on experience through real-time project simulations in an Agile framework
- Continuously expanded skill set and stayed up-to-date with the latest industry trends and best practices in web development

Business Manager & I.T Support Specialist

NeedAGeek Tech Services

📅 02/2019 - 08/2023 📍 United Kingdom

I established and managed the U.K. operations for NeedaGeek over 5 years, demonstrating leadership, tech expertise in providing remote support for Windows/Linux, exceptional customer service, and efficient handling of administrative tasks.

- Established and managed the U.K. base of operations for NeedaGeek Limited, demonstrating strong leadership and organizational skills gained over 5 years in the tech sector.
- Provided exceptional customer service by promptly and professionally handling client inquiries via phone, email, and live chat, utilizing my expertise in the tech sector.
- Demonstrated advanced technical skills by offering remote tech support and troubleshooting for clients using Windows & Linux platforms.
- Efficiently managed administrative tasks, including booking appointments, invoicing, and maintaining spreadsheets.
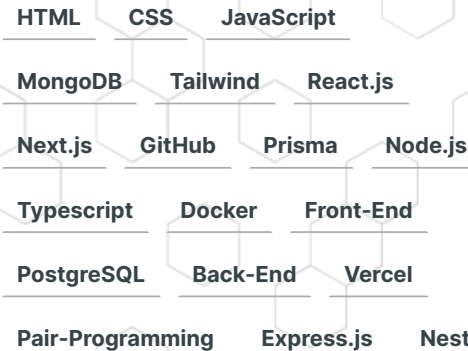

EDUCATION

Full Stack Software Developer Course

Boolean UK

📅 08/2023 - 03/2024 📍 Remote, United Kingdom

SKILLS

HTML CSS JavaScript
MongoDB Tailwind React.js
